

Hungarian Water Partnership: linking partners who respect water

Talk to us, if you're involved in water purification, wastewater treatment or water management. At the Hungarian Water Partnership (HWP), we foster water-related collaboration. Our Hungarian-owned member companies provide innovative, sustainable, and bankable solutions across the globe. Furthermore, as a registered industrial cluster, our members also include a national research institute and a university — both open to implementing international R&D projects.

Being a non-profit professional organisation, HWP has built and continues to maintain an extensive global network of contacts. Furthermore, it has been involved in international knowledge transfer too.

What We Offer: Our members cover almost every aspect of water and wastewater management:

Wastewater Treatment ✓ municipalities with / without canalisation ✓ industrial WWT	Drinking Water Treatment ✓ large/small municipalities ✓ water purification ✓ regenerable adsorbents	Asset Management ✓ network mapping ✓ inventory issues ✓ asset evaluation
